## NEARING AGREEMENT ON WOOL BILL

Washington, Aug. 10.—The democratic members of the Ways and Means committee this afternoon almost unanimously rejected Mr. La Follette's proposed cut of 30 per cent on wool. Two unnamed members of the committee willingly take 30 per cent. They are the protection democrats of the committee.

Most of the other members are standing out for 29 per cent or less if they can get it. There is, however, no 28 per cent proposition before the house conferees, but it is common report that Senator La Follette, as a last resort, will come down to 28 per cent. This is practically what the house democrats fived as the limit above which they would not authorize Chairman Underwood to go. So as the matter stands today Messrs. La Follette and Underwood are only 2 per cent apart. Hence both of these gentlemen are saying there will certainly be a final agreement.

### Unheard of Proposal.

Everything about the occurrence is in secret, and therefore the assertion can not be verified, but it is commonly reported about the Capitol, that Senator Bailey, who originally proposed a duty of 30 per cent on wool and the same on most of the woolens, is backing up Mr. La Follette in his firm stand for 30 per cent. It is further said that if the house insists on a lesser duty than 30 per cent on wool Senator Bailey at tomorrow's meeting of the whole conference committee will make the unheard of proposition in connection with conferees to throw the meeting open to the newspaper correspondents in Washington in order that the country may be shown who is blocking an agreement on the wool bill.

### Would Demand Instruction.

This report reached the house democrats, but it did not drive them from their insistence that the senate should meet the house half way, which would be 27 1-2 per cent, or at furthest 28 per cent, and at this afternoon's meeting of the Ways and Means Committee democrats, several of the members, including, it is said, Chairman Underwood and Representa-

tives Randell and Harrison, declared that they would demand the instruction of a party caucus before they would go above the 27 1-2 per cent mark.

With the conferees but 2 per cent apart and both Mr. Underwood and Mr. La Follette declaring that there will be an agreement, the row that is being raised over the situation with the threat to let the light of publicity in on the conference doings is regarded more as spectacular "stalling" on the part of both the house and the senate than a crisis.

Some kind of tentative agreement on the free list bill has been reached between Senator La Follette and Representative Underwood, the character of which both parties declined to reveal in advance of its presentation to the conference tomorrow.

The most frequent guess is that there has been an acceptance of the senate bill with the minor modification which would necessitate another vote in the senate, in order to give the Senate democrats another vote on the proposal to accept the house bill with free meats and free flour. Should this attempt fail, then it is conceded the house will adopt the senate bill with the Kern amendment, in order to get some kind of a free list bill up to the president.

### Boll Worms in India.

Lahore, British India, Aug. 8.—The ravages of the bollworm are so widespread in Punjab that unless it can be speedily checked, the belief is expressed that there may be little or no cotton crop in the province this season. The normal cotton crop of Punjab is from 250,000 to 300,000 bales of 500 pounds each.

## GENERAL FIGHT IN THE FLATS

Last night a general row took place in the flats, as a result of which two negroes were slashed up with a razor and another laid out by a blow on the head. Lon Adams, proprietor of the negro boarding house, and who is better known to the public as "Red," was badly slashed on the arm, side and back with a razor in the hands of Osceola Crumley. Slim Horton was cut on the arm and Van Hoskins was knocked in the head and put out of business for the time being. By way of giving the alarm and calling the police, some one ran out and fired a gun a few times, but before they could arrive, Crumley had moved out. An all night search for him was instituted by Patrolman Eaton, but he had already shaken the dust of Ada from his feet. He will likely be captured however, and brought back to explain matters. The fight arose over the attempt of "Red" to collect a board bill of fifty cents from a negro woman boarding at the place.

### Barham Favors Special Session

J. S. Barham, florial representative of Pontotoc and Seminole counties, when asked by a representative of the News what he thought of the advisability of calling a special session of the legislature to redistrict the state, said he was most emphatically in favor of it. He thinks there is nothing like taking time by the forelock.

## COMMONS CURB POWER OF LORDS

London, Aug. 10.—Premier Asquith's government, which claims to represent the democracy of Great Britain, tonight enforced its will upon the Peerage by the narrow vote of 131 to 114. By this vote the House of Lords decided to accept what the Liberals contend is the will of the people and adopted Viscount Morley's resolution not to insist upon the Lords amendment to the Parliamentary bill, which practically limits the power of the House of Lords to a two years' suspensory veto and vastly increases the prerogatives of the House of Commons.

The constitutional struggle which began when the House of Lords nearly two years ago rejected the budget of David Lloyd-George, Chancellor of the Exchequer, is ended for a time at least, and with the greatest change to Great Britain's working constitution since the passage of the reform bill.

The progress of voting consumed nearly an hour and the result trembled in the balance until the last moment. The "die hards" mustered greater strength than was expected and the government owes its victory to the votes of between twenty and thirty conservatives, who threw in their lot with the Liberals to save their own caste from loss of prestige and the king from the necessity of exercising the royal prerogative of the creation of a number of new peers from which every one believes he was extremely anxious to be saved.

The archbishops of Canterbury and York and nine bishops also lined up with the government, although the ecclesiastical Lords generally keep aloof from party questions. The bishops of Bangor and Worcester went with the Liberals, the "last ditchers."

### Nobility's Limited Support.

It will be noticeable that the highest ranks of the nobility furnished the fewest supporters of the government. The Dukes of Norfolk, Leeds, Marlborough, New Castle, Northumberland, Somerset and Westminster voted with the opposition, while the remainder abstained from voting.

"Drinking the hemlock" had become a historic phrase in past months and the gathering in the ancient chamber tonight to witness this memorable humiliation was worthy of the occasion. Peersesses, Ambassadors and commoners packed the galleries and a group of private councillors, by exercising the prerogatives of their position, sat on the steps of the throne. The benches, aisles and floor were crowded.

### Lords Forget Dignity.

Arthur Lee, in speaking of the House of Commons today, said this would be a black day on England's history if the House of Lords accepted the veto bill and the House of Commons cut adrift from the traditions of centuries to bestow salaries upon its members. Apparently the sentiment of the Peers was in full accord with this description of the occasion. Lords frequently forgot the oppressive dignity which customarily marks the proceedings in the upper

chamber and fought for a hearing with great strenuousness.

The Earl of Halsbury once went so far as to make a formal motion that one of his supporters be heard in preference to one Peer who favored the government.

When the voting began Lord Lansdowne withdrew to a position behind the throne, but his followers watched the issue eagerly. The bishops on both sides walked through the teller's first. A thrill of excitement marked the appearance of each notable, but none was greater than when Lord Roseberry appeared as a supporter of the government.

### Commoners Celebrate Victory.

As soon as the result was known several members of the House of Commons rushed from the galleries into their own chamber and whispered the news to the members. A great cheer followed the announcement of the government's victory. The question of the hour is what effect tonight's decision will have on the future fortunes of the conservative party. Viscount Morley's definite announcement that enough Peers would be created permanently to swamp the upper house if the government did not prevail apparently swayed a few wav-ers and decided the issue.

## SWANSON COUNTY OBJECTS TO DISSOLUTION

Lawton, Okla., Aug. 11.—The militia may be required to consummate the final dissolution of Swanson county, according to residents of that part of Comanche which was cut off in Swanson who are in Lawton Thursday.

The mandate of the supreme court ordering the new county's dissolution arrived in Lawton Thursday and was filed in the district court of Comanche county, which first ordered the county's end, but according to the belief of those who are "holding the fort" in Mountain Park, Swanson's county seat, the order of the supreme court will be of no avail.

For, on the theory that a county once created can be dissolved only by vote of the people, County Judge Bryant, who has succeeded Frank P. Cease, deceased, has issued a restraining order against the world forbidding interference with the actions of the county officers. It is a "def" of the state courts and Indianahomen fear it will bring more bloodshed before the county is finally dissolved.

### Murray County Court House Row.

Davis, Okla., Aug. 11.—Murray county now owns the Harper opera house, East Sulphur, and Judge Stilwell Russell is holding court in the new quarters. The west side fight for the court house is probably at an end. Jake Wright stated Thursday that Sulphur would be known in the future as only one town. East side citizens deeded the opera house and a residence for the sheriff valued at \$25,000 to the county free. Feeling on the west side is running high, but bloodshed will probably be averted by the coolness of Judge Russell and the more conservative business men. The county commissioners deeded the west side courthouse back to the Choctaw Construction company and accepted the opera house. Quiet prevails and court proceedings are running smoothly. It is believed no serious trouble will result.

### Back From Stillwater.

M. F. Dew, one of the most enterprising farmers of Pontotoc county, returned yesterday from Stillwater, where he represented the Pontotoc county institute at the state meeting. He is highly pleased with the A. & M. college and conditions prevailing there. The methods of farming, the sanitary arrangements of the dairy, the well kept grounds and other things about the place appealed very strongly to him. Of course he was in the general excitement incident to the election of two members of the board, and like many others, figured that the two old members should be removed, but was on the losing side.

Henry Clay Beattie, a young sport  
of Richmond, Virginia, is in a fair  
way of being hanged for the murder  
of his wife. Beattie was captivated by  
the charms of another young girl, and  
wrecked her life. Then he killed his  
wife to make way for the other girl.  
Naturally he was not sharp enough  
to escape detection, and is now lying  
in jail waiting for a trial. The girl  
for whom he killed his wife has  
turned her back upon him, and will  
aid in convicting him of his heinous  
crime. Beattie comes of an aristocratic  
southern family. Everything that  
wealth could buy was his, and as a  
result of his care free idle life, turned  
his steps in the wrong direction.  
He has disgraced the family name  
and wrecked all about him. He is  
reaping what he sowed, but the fact  
that others must help him reap his  
wild oat crop makes the tragedy all  
the deeper. Although his fate should  
be a warning to others placed in a  
similar position, it is not likely that  
any special attention will be paid to  
it. Others will go ahead feeling confident  
that they are shrewd enough to  
outwit the law of nature that forces  
a man to lie upon the bed he makes  
for himself.

MAY SEND GEORGE W.

PERKINS TO PRISON

Washington, Aug. 8.—George W. Perkins, a director of the United States Steel corporation, and one of the men said to have aided in averting financial disaster during the panic of 1907, Tuesday night faced the alternative of answering questions to the house committee of inquiry into the steel corporation, bearing on his personal campaign contributions and such contributions made by the New York Life Insurance company or of being cited before the bar of the house of representatives.

Should the house sustain the majority of the committee and order Mr. Perkins to answer, and should he then refuse, he may be adjudged in contempt of congress and immediately imprisoned. It is believed, however, that this crisis will not be reached, Mr. Perkins having expressed a desire to reflect on his position.

The bearing of children is frequently followed by poor health for the mother. This supreme crisis of life finding her physical system unprepared for the demands of nature, leaves her with weakened resistive powers and sometimes chronic ailments. It is the only remedy that perfectly and thoroughly prepares the system for healthy motherhood, and brings about a natural and easy consummation of the term. In regard to the districting of the state by initiating a bill, Gov. Cruce still holds a card up his sleeve that can damage the plans of the republicans, if the attempt is made to handle the matter without action by the legislature. He cannot be forced to submit it to a vote before the general election of 1912 which time the additional congressmen will be elected at large, and it will be another two years before the initiated bill could become effective, even if passed.

MANY FOREIGN SPIES

IN ARMY AND NAVY

Washington, Aug. 10.—Startling evidence of the pernicious activity of foreign spies is in the possession of the army general staff, which accounts for the serious consideration that is now being given to the most trifling report of attempts to discover the military secrets of the country. Some of these incidents are of comparatively recent date, and it was upon the submission of such information to a secret session of the judiciary committee of the house that legislation was secured at the last session of congress providing for the severe punishment of spies in time of peace.

tionality in the United States gathering military information.

A New York policeman arrested an American for a trivial offense and found in his trunk military maps and information which convinced the officers that he was in the employ of a foreign government.

But the incident that convinced the judiciary committee of the necessity for the protective law occurred less than a year ago in the Philippines. An enlisted man in the engineers was offered \$25,000 by two foreign officers for the plans of the defenses of Corregidor Island. Being the official photographer, he had ample opportunity to get all the necessary pictures, having first informed his superior officer of the attempt. A trap was laid and the two foreign spies were captured. But habeas corpus proceedings were obtained and they were released, there was then no law in the Philippines or United States under which they could be prosecuted.

#### To Owners of Real Estate In Pontotoc County

There are frequently found, upon examination, unknown and unsuspected clouds upon the title of real estate, such as unpaid taxes, uncancelled mortgages, mechanic liens, judgments, deeds of conveyances defective in signature, in acknowledgment or description, adverse claimants, errors made by conveying officers, and innumerable other defects, any of which may exist, all unsuspected by the owner, who fondly believes his title clear, but who really knows nothing about it, because he has never had an investigation made and an abstract of title prepared. Most of these clouds and defects could be cleared and cured were their existence known in time; but they lay dormant and are not discovered until the owner is rudely awakened from his fond dream of security by some progressive speculator or purchaser offering a good round price for his property, but demanding an abstract of title as the first condition of the sale.
